Before the video was shot, Ross held an island wide search for a leading lady to star opposite him. His final pick was Makeedah John who impressed the singer with her natural beauty and dynamite personality. The video, which was directed by film and television producer Davina Lee will be launched and released in late August. The singer is also now in studio and getting ready to release even more hit singles. Ross is also planning a launch of his new website, [ShayneRoss.net](http://ShayneRoss.net).
