

One To Watch: Shayne Ross

There seems to be something special in the drinking water on the island of St. Lucia. A new generation of talent is cropping up all over the country with smooth voices and sweet sounds. One of the young crooners who is sure to sing his way into the hearts of many music lovers is Shayne Ross. The singer recently spoke to SHE Caribbean about his career. “I have been singing professionally for about a year now. I write my own songs and can describe them as real. I talk about life experiences and relationships,” explained Shayne. His R & B tunes included ‘Naked’ produced by Francis ‘Leebo’ Delima and ‘Take Me Home’. The still unsigned artiste is now working on two music videos for his songs. SHE Caribbean will be keeping an eye and ear on this one!
